Analysis:

1. Students whose average attendance was above 70% were considered for Feedback.
2. Average was taken for all the 12 criterias.
3.There is a need to fill the gap between industry requirements and academic curriculum

Action Taken

More guest lectures from industry experts/Industrial Visits are planned to fulfill the gap. Students were also motivated to enroll for industry oriented MOOC courses.
More Alumni interection is planned to bridge the gap.

Analysis:

1. Students whose average attendance was above 70% were considered for Feedback.
2. Average was taken for all the 12 criterias.
3. After averaging it was found that according to the feedback given by students "Learning value in terms of skills, concepts knowledge needs to be enhanced".

Action Taken

In accordance with the analysis done, Learning values in terms of skill improvement needs were identified and introduction of additional skill set was done

Analysis:

1. Students whose average attendance was above 85% were considered for Feedback.
2. Average was taken for all the 12 criterias.
3.As per survey, Students were found lacking in Skills, Analytical Abilities and communication skills 4. Student lacked in making efficient use of technology at the workplace

Action Taken   1.Students were exposed more to practical work via competitive coding classes and were allocated projects under the supervision of faculty members

2. Soft Skill Classes and technical communication skills were included in time table to fulfill the gap

Analysis:

1. Average was taken for all the 11 criterias.

2. According to the survey students somehow lacked in communication skills

3. Students lacked in making efficient use of technology/ equipments at the worksplace.

4. Students should be made aware of the amalgamation of the latest technologies in the field of Computer Science and information technology.

5. Industry Exposure should be given to the students.

6. Students lacks basic communication Skills. Gap in exposure to the latest technologies used in the industries in industrial automation

Action Taken

1.Soft skill classes and technical communication skills are been given to students.

2.Based on the feedback from students for the CodeTantra platform, it was decided to conduct placement preparation classes related to DSA (Data Structure and Algorithm) and DBMS (Database Management System) on this platform.

3.It was also decided to start programming batches on Java and Python so that students are prepared for campus placement drive for the logic building and concept implementation.

4.The Department shall conduct a few guest lectures on the hot topics explaining the need and requirement of the latest technologies on demand.

5.Verbal and aptitude classes will be in the timetable in the 6th semester.

Analysis:

1. Average was taken for all the 11 criterias.

2.According to the alumini the curriculum does not meet the reuirements of the industry

3.Students should focus more on logic building in DSA (Data Structure and Algorithm)

Action Taken

1.Soft skill classes and technical communication skills are been given to students.

2.It was also decided to start programming batches on Java and Python so that students are prepared for campus placement drive for the logic building and concept implementation.

Analysis:

1. Average was taken for all the 11 criterias.

2. In accordance with the analysis done, Industry Academia Gap is identified, and AI & ML using Deep Learning value added course will be introduced in curriculum as additional skill set.

Action Taken

After averaging of the feedback given by alumni it is was found that there is a gap in exposure to the students from the outside world.

Analysis:

1. Average was taken for all the 11 criterias.

2. The syllabus is to be updated slightly to make it more interesting and relevant for job. The reading material is to be easily availble to students.

3. Alumni had suggested for enhanced industry connect so that bridge between the theoretical learning and industrial work can be made.

Action Taken

Activity based learning and case based teaching are being introduced to bridge the gap as we cannot update the syllabus. Various MOOC's and certification programs were recommended
